

WEEKLY INTERNSHIP REPORT

Week No.: 6	Date: 06/07/2026 – 12/07/2026
Intern Name: Aditya Pawar	

Task Given by Supervisor:

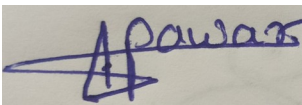

- Implement document upload and text extraction for multiple file formats.
- Implement text chunking for the extracted content.

Work Completed This Week:

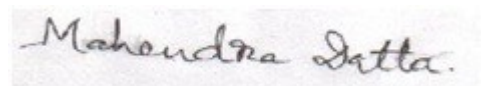

- Developed the **POST /upload** endpoint with **file type and size validation** for PDF, TXT, and DOCX files.
- Built document loaders that extract text with **page-level metadata**.
- Implemented **RecursiveCharacterTextSplitter** chunking with 1000 character chunks and 200 overlap.
- Integrated **pdfplumber** and **pytesseract** to support OCR for scanned documents.

Remark by Supervisor:

The document processing module handles multiple formats well. The intern showed good understanding of chunking and its effect on retrieval.
