

WEEKLY INTERNSHIP REPORT

Week No.: 2	Date: 08/06/2026 – 14/06/2026
Intern Name: Aditya Pawar	

Task Given by Supervisor:

- Revise advanced concepts of Deep Learning, Computer Vision, and Natural Language Processing (NLP).
- Attend technical sessions on Computer Vision & NLP.
- Participate in internship meetings and project discussions.
- Explore possible project domains and understand the project selection process.

Work Completed This Week:

- Revised advanced Deep Learning concepts with a focus on Computer Vision and NLP applications.
- Attended technical sessions covering the fundamentals of NLP and Computer Vision.
- Participated in internship meetings to understand project requirements, expectations, and development workflow.
- Explored various project domains and gained an understanding of the project selection process for the upcoming weeks.

Remark by Supervisor:

The intern actively participated in the technical sessions and discussions. Demonstrated a good understanding of advanced AI concepts and showed enthusiasm in exploring potential project domains.
